Third Lecture Series of “Course on Robotics”

The 3rd lecture series on "THE COURSE OF ROBOTICS" was conducted on 8th April"17. It was the last lecture series of this semester. Three more lecture series has been planned to be conducted in next semester.

OBJECTIVE:

The objective of this series was to introduce new and advanced concept of hardware and software used in Robotics.

PARTICIPANTS:

About 45 students from all branches of B.Tech. attended this lecture series, in which 35 students were from 1st year and rest 10 students, were from 2nd year.

Lecture Series 3 Course Content:

1. Circuit designing and Simulation using Proteus
2. Serial communication in Robotics
3. Data transmission through various modules

IMAGE GALLERY:

Circuit design by Priya patel, EC 2nd yr.

Data transmission by Aditi, IT 2nd yr.

Simulation by Kunal verma, EC 3rd yr.

Serial communication by Tanmay Gupta, IT 3rd yr.
